The public has received with enthusiastic welcome from him "Routledge Rides Alone," "She Bnildeth Her House," and other stories. Mr. Comfort, in the beginning of his writing career, wrote a number of short stories for The Tribune, which the readers of this paper greatly enjoyed. He has grown, however, very men and women, and there is in this novel displayed, in fact, a world panorama, a work wonderful to read and firm in its grasp, at all points. And it is equally ambitious in its study and exemplification of human tendencies and emotions. This novel is easily the best of the spring fiction, and we wish emphatically and personally to compliment the author for the great scope ill, the work is well done, of his imagination and the grasp of his literary power as displayed in this very fine novel.

## LITERARY NOTES.

C. Reginald Enock, F. R. G. S., in "The Secret of the Pacific" (Scribner's) reviews the evidence for and against the assumed Asiatic origin of the Aztecs and Incas, or their predecessors, in the light of his own considerable study of the subject and his own travels. He traces the possible paths whereby such prehistoric lumingrants might have arrived meaning the state. toric liminigrants might have arrived upon the western coast of America. In these days of short-lived novels, it In these days of short-lived novels, it is interesting to note the fact that Helen Hunt Jackson's California romance, "Ramons," originally published in 1884, has just reached a 93d printing. Nearly 250,000 copies of this great American classic have been sold. It is one of the few successful novels that has never been relissued in cheap form.

Anne Douglas Sedgwick's new novel.

"Tante," now in its fourth large edition is the author's first striking success with a book, although all of her previous eight novels have found a number of appreciative readers. But "Tante" seems to have "caught on" with that wider circle, the general public. Miss Sedgwick (who is now Mrs. Basil de Selincourt) is an American who has for several years made her home in England, and it is there that the identification of "the world's greatest pianist," the "Tante" of the novel, is exciting much interest.

"The Counsel Assigned." Mary Raymond Shipman Andrews's new Lincoln story, won the first prize of \$2500 in a story contest conducted by the Associated Sunday Magazine, before it was published as a book by Charles Scribner's sons. The title was then "The Counsel for the Defense." As "The Counsel for the Defense." As "The Counsel Assigned" it has already run into a third edition, and seems likely some day to rival that earlier and more famous Lincoln story by Mrs Andrews, "The Perfect Tribute," which has now sold more than 200,000 copies.

A new book by Edgecumbe Staley, author of "Tragedies of the Medici," has just been issued by the Scribners. It is called "King Rene d'Anjou and His Court. A Romance of Seven Queens, and forms the first account in English of the life story of this striking figure in the history of the Renaissance, who, as a soldier and traveler, was unsurpassed by men of his time, and also excelled as architect, engineer, sculptor, medalist, painter, ministuriat, writer, and poet.
